SUMMARY

Computer Science Engineer and Portuguese Air Force Helicopter Avionics Technician with over 12 years of experience maintaining and troubleshooting mission-critical aerospace systems while leading technical teams in high-responsibility operational environments. My multidisciplinary engineering background combines expertise in software development, systems infrastructure, data analytics, networking, radio communications, electrical and electronic engineering, avionics, aerospace and mechanical systems, acquired through formal education, military technical training and continuous self-learning.

I enjoy solving problems and understanding how things work across multiple engineering disciplines.

WORK EXPERIENCE

Aircraft Avionics Technician | Technical Inspector | Team Leader

Sep 2014 – Present

Portuguese Air Force – Beja, Portugal

- Leading a team of 8 avionics technicians, coordinating the maintenance, inspection and troubleshooting of mission-critical avionics, electrical and electronic systems on military helicopters
- Software updates, configuration and calibration of Garmin G1000H NXi integrated avionics systems.
- Testing and troubleshooting of aircraft communications, navigation and electrical/electronic systems.
- Interpretation of technical documentation and compliance with aviation maintenance standards.

IT Support Technician

May 2014 – Aug 2014

CGI – Lisbon, Portugal

- Delivered multilingual B2B technical support.
- Resolved software and application issues.
- Managed incidents through CRM and ticketing systems.

Mobile Network Operations Technician

May 2013 – Apr 2014

Nokia Solutions and Networks – Lisbon, Portugal

- Monitored mobile telecommunications network performance and availability.
- Performed remote troubleshooting and fault analysis across the Spanish mobile network.
- Opened, tracked and managed technical incidents through CRM and ticketing systems.
- Collaborated with technical teams to ensure network service continuity and rapid incident resolution.

EDUCATION

Bachelor of Science in Computer Engineering

Sep 2023 – Jun 2026

- Polytechnic University of Beja (UPBeja)

Air Force Sergeant Course – Aircraft Electrical & Avionics

Dec 2017 – Dec 2018

- Portuguese Air Force Training and Technical Centre (CFMTFA)

Air Force Airman Course – Aircraft Electrical & Avionics

Nov 2014 – Sep 2015

- Portuguese Air Force Training and Technical Centre (CFMTFA)

EQF Level 4 Vocational Diploma in Industrial Maintenance/Electromechanics

Nov 2007 – Sep 2010

- Professional School of Almada (EPA)

SKILLS

Software Development

- Python • Java • JavaScript • Kotlin • SQL • REST APIs • React • Laravel • ASP.NET

Systems & Infrastructure

- Linux • Windows • Network Administration (Cisco & MikroTik) • Docker

Data & Analytics

- Power Query • Power BI • Data Analysis (Pandas) • Machine Learning (Scikit-learn)

Electronics & Electrical Engineering

- AC/DC Electrical Systems • Analog & Digital Electronics • Automotive Electrical & Electronic Systems • Instrumentation & Sensors • Fault Diagnosis

Avionics & Aerospace

- Garmin G1000H NXi • Aircraft Avionics • Aircraft Electrical Systems • Navigation Systems

Communications Systems

- Radio Communications • VHF/UHF Systems • Aircraft Communication Systems

Mechanical Systems

- Mechanical Systems • Electromechanical Systems • Automotive Mechanics

Leadership & Management

- Team Leadership • Personnel Management • Technical Decision Making • Technical Training • Planning & Coordination • Technical Documentation

LANGUAGES

Portuguese

- Native

Spanish

- Native

English

- B2 (Listening: C1)
